

HALCYON 1949

"FREUD would have something to say about that."

Digitized by the Internet Archive in 2010 with funding from Lyrasis Members and Sloan Foundation

Halcyon 1949 SWARTHMORE COLLE

PENNSYLVANIA SWARTHMORE

To all of those who are Swarthmore College, this book is respectfully dedicated. It is so dedicated with unspoken praise and with a word of caution.

To the Alumnae . . . we shall soon be you, and there is no difference between us.

To the Administration that the least of the reasons we come to Swarthmore is to sleep in your dorms, eat in your dinng rooms and live by your regulations . . . that rules and regulations are made to help people live together, not to hinder them . . . and that a frank admission is to be preferred to soft words.

To the Faculty... that your part of the college lies far beyond your class rooms... that we come here unlearned, but we do so in order that we may learn... that freedom of education means equal opportunity, and judgment solely upon merit.

To the Students that you are here for the development of the mind, and of the inner self, rather than of the ego... that no group has the right to take it upon itself—unbidden—to say how others shall live and act... that the engineer with his road and the scientist with his experiment, each have a responsibility as to their destination or use, and he cannot claim an occupational deferment from the world around him... that apathy is one of the greatest enemies... and that time is not standing still while we prepare for the future, and our lives now are no less important than what is to come.

A PHILOSOPHY OF EDUCATION

"She's a rum 'un is Education," to paraphrase Mr. Squeers in Nicholas Nichleby, ". . . more easier conceived than described." Certainly no one description would fit the philosophies and programs this country offers its students, and no one statement will do justice to the educational ideals of Swarthmore College, or reflect the differences of opinion of those whose business it is to formulate and execute the program. Three propositions, however, summarize

certain leatures in the practice and ideals of the college.

1) A liberal education involves the development and discipline of the mind. A disciplined mind is one that knows how to analyze complex data and to use methods suitable to the material. To do so, it must possess at least some of the common intellectual skills necessary to the understanding of man and his environment, including the appraisal of values inherent in human action.

Intellectual discipline is, in the last analysis, self-discipline, and the college can but provide the setting and the tools. Each individual must depend upon his native qualities plus the use made of time and opportunity. Freedom from many conventional academic restrictions puts the responsibility on the individual. The honors program, above all, is designed to foster this intellectual discipline and achievement. Introduced twenty-five years ago by President Aydelotte to compensate for what he called the academic lock-step of mass education, it is needed even more today. Some students want combinations not available and elect to remain in course. Some do not want to make the effort that honors work requires. Some are not yet capable of it. Honors work is not the only method of intellectual salvation, but its success at Swarthmore and the subsequent wide imitation elsewhere emphasize the first ideal of genuine education.

2) A liberal education provides a common background. The range of human knowledge and the diversity of individual interests are so great that some degree of specialization is necessary and desirable. Equally necessary and desirable is a certain amount of common information and intellectual background. If men are to deal intelligently with their problems as members of society, they need to understand each other's language. The scientist cannot be a good citizen if he is ignorant of economics and politics. The political economist cannot understand the natural scientist if he knows nothing of the rigor if the scientific method. Both ought to be familiar with the classis expressions in philosophy and literature of the way men have conceived human life. Thus, a liberal education ought to deal with certain broad concerns of men in their relations with each other, concerns which underlie their individual enjoyment of life and their common efforts to develop a civilized society.

For this purpose some subjects are more important than others. This recognition is embodied in the new curriculum with its various required courses in the first two years. There is room for debate whether the particular subjects now prescribed are the best or whether the content of the requiresd courses best serves the common end. The ideal, however, is receiving increasingly wide recognition in contemporary education.

3)A liberal education includes the development and disclipine of the emotions. Those who look upon the college or university as a kind of intellectual factory only, are wrong. The development of the mind and of the emotions do not always go hand in hand. The ideal is the growth of the two together, and any college which fails to recognize both the ideal and the close interconnection of the two in the actual learning process is failing in its responsibility. This is why the spirit and attitude embodied in a college are as important as its intellectual standards and methods. The Quaker tradition of Swarthmore plays an important role in providing a framework of values and attitudes which cannot be taught in classes, but which permeate the institution in the quiet way typical of the Society of Friends. Student activities contribute to the total education. They are not sideshows, but, when used wisely, should form an integral part of the academic program. In proper proportion, they are a vital part of a liberal education conceived as the development of men and women whose intelligence is directed by character and whose philosophy of life is sharpened by disciplined and informed minds.

DEAN SUSAN P. COBBS

Not only does Miss Cobbs handle the duties of a Dean of Women—the interviewing of applicants, the advising of students on problems of any nature—with great skill and charm, but she is also a member of the Classics Department.

That southern accent proclaims her as a former resident of Alabama, and also provides, with her amused consent, any of the college mimics with an entertaining subject. And she herself is remembered for her part in the recent skit of the Club Roccatorso.

In residence at Benjamin West House, Miss Cobbs gives teas for freshman girls, furnishing herself with a chance to know them all personally, and for the girls to meet each other and feel at home.

DEAN EVERETT L. HUNT

Ever since his arrival in Swarthmore in 1925, Dean Hunt has been a self-styled "student's attorney"; he believes it is the Dean's job not to make and enforce rules, but to see that the rules established by the students and faculty bring about the happiest and most successful level for all concerned and to represent the interests of the individual student to whom the mechanical rules do not apply.

Dean Hunt is the affable advisor to all men on any matter—his concern is always for the individual as well as the group. He also interviews visiting prospective students, and handles most of the veterans' applications.

An extremely busy administrator, he is also a much-valued professor, teaching classes and seminars in literary criticism and his beloved Milton

And with Mrs. Hunt, the Dean is much in demand as chaperone for social functions—remember them at a recent T. P. blowing soap bubbles?

Yet in spite of being one of the busiest men on campus, this jovial Westerner somehow manages to find time to listen to his Bach recordings or to run through his movies of the West.

Dean Hunt, with his warm-hearted friendliness and understanding, has become one of Swarthmore's most prized possessions.

VICE PRESIDENT JAMES PERKINS

No stranger to the HALCYON is Mr. Perkins; Sports editor for the '36, he was reported to be a "scholar, conscientious and thorough . . . a ready conversationalist . . . and the possessor of a decisive firm type of personality." He was a member of the well-sung Economics Honors group of that year. Before returning to Swarthmore in '40, he served on the Princeton faculty, and in the OPA and FEA.

As chairman of the campaign, his worries run into the millions, and yet he managed to assume the additional duties created by President Nason's leave of absence this fall.

COMPTROLLER CHARLES G. THATCHER

Calm, even, quiet, efficient, Mr. Thatcher pays the bills. Under his direction and control, Swarthmore functions: buildings & grounds, business offices, house director, dining room—all are part of his ultimate responsibility. The making of the budget, payment of salaries, and departmental expenditures also fall under his jurisdiction.

But his connection with Swarthmore is more than of checks and ledgers. He was graduated in the Class of '12, and married into that of '13. Prof. to the slide-rule pushers, Mr. Thatcher was head of the Engineering department for ten years.

"Whenevr you are all mixed up and feelin' sick o' men

Just go to Old Charles Scarrett and he'll fix you up again

You'd think him just a slow old cus with no chance at all for fame,

But he's mighty fine to have around, he's always just the same."

-HALCYON 1912

ASSOCIATE DEAN ALICE L. MORAN

Aiding Miss Cobbs is our Associate Dean of Women, Miss Alice Moran, a charming and efficient person. Her chief responsibility is handling the larger share of work involved in the selection of women students. She shares with Miss Cobbs the interviewing of applicants who come down to Swarthmore. She also travels to New England and the mid-West, interviewing prospective students, which must be done between the end of February and the middle of April, making the spring a rather hectic time.

As vocational advisor for women, Miss Moran conducts privavte interviews with seniors on the question of jobs after graduation, and, under her guidance, the vocational committee has sponsored lectures by faculty members of different departments on job prospects for majors in various fields.

Before coming to Swarthmore, Miss Moran was secretary of the tutorial system at Radcliffe and of the Harvard Graduate School office. Although she has been here less than three years, she has made for herself an enviable place in the heart of the College.

ASSISTANT DEAN J. DEMARIS AFFLECK

When Demmie Affleck was graduated last year she had a big job ahead of her—that of Assistant Dean of Women at Swarthmore. Demmie had shown herself particularly capable for this type of work during her undergraduate years. She was awarded the Oak Leaf Medal as being the most outstanding for loyalty, scholarship and service in her class. She was also a member of Mortar Board and president of W. S. G. A.

As Assistant Dean, Demmie has control of the conduct books and special permissions, is advisor to the Social Committee, W. S. G. A. and the Student Council, and has charge of the baby-sitting agency. However, her position is primarily that of advisor to any or all students who need the help of someone familiar with student problems. In this respect, she is housemother of Parrish and freshman counsellor.

Demmie made a quick transfer from student to faculty, and she is convinced that the faculty position is much the better of the two—as she phrases it, "no homework".

ASSOCIATE DEAN JOHN M. MOORE

In the field of veterans' affairs, Mr. Moore has the double task of acting as a representative of the college to the Veterans' Administration, and as faculty advisor to the veterans themselves.

Mr. Moore came to Swarthmore from Hamilton College four years ago to teach philosophy and religion. After being here for two years, he was offered the job of Associate Dean. As Mr. Carrell says, it is John Moore's ability for organization which has caused things to fall naturally into their places with almost a minimum of effort.

As an additional responsibility, Mr. Moore is also the Executive Director of the National Council of Religious Education, which aids young men who wish to do graduate work in religion, and helps them to get jobs after they have been graduated. Next year he will also take on the responsibilities of the Registrar's Office.

In interviewing, advising, and teaching, Mr. Moore's mature judgement and ready sympathy have been appreciated by all students.

ASSISTANT DEAN JEPTHA J. CARRELL

"Jep" Carrell came to Swarthmore in the fall of 1946, after his discharge from the Marine Corps. He had previously studied at Swarthmore with the V-12 unit, and had finished his studies at F. and M., and at Penn Graduate School. His work at Swarthmore is purely administrative.

Since it is difficult to interview each applicant for Swarthmore due to distances involved, Mr. Carrell has been organizing alumni committees in various parts of the country who will do some of the interviewing for the College. Another purpose of this Alumni Center Organization is to help create more alumni interest in the school. Also, it is hoped that the alumni will seek out more applicants themselves, thus providing a better choice for the College.

"Jep" is extremely well-liked around campus. Summer afternoons will find him out in the Wharton quad warming up his pitching arm with the boys. Young himself, "Jep" is well able to appreciate and answer the questions of Swarthmore's many veterans, as well as to help cure the men's everyday headaches.

transfer from vassar (!) . . . man of the world, navy air corps, and campus . . . ex-engineer in economics . . . just like the other phi psi's . . . and he's dropped his pin, too . . . like a good little brother . . . small, dark, and handsome . . . wrestling, mec, industrial relations . . . interest in foreign affairs . . . firm belief that work is not the spice of life . . . smooth dancer and socially inclined . . . ed

ANN THACHER CLARKE

the honors system was made for this thinker . . . enthusiasm plus for philosophy, history and people . . . even the unique experience of a year's friends service work in berlin could not dampen her ardor for college life . . . haunts the libe, but derives untold glee from chorus, chamber music, cutting, and bridge . . . "thanks awfully" . . . thach

ALICE BROADUS CLIFFORD

completely sincere . . . appreciative of people, books, music . . . little-boy look in jeans . . . hates bridge . . . humming gilbert and sullivan under her breath . . . worries about the world . . . an elusive charm . . likes josh white records, a. a. milne, and thomas mann . . . sudden spurts of energy . . . a lass with a thoughtful air . . . infectious laughter . . . cliffie

HARRIET R. COHEN

keen ideas behind those brown eyes . . . honors—psych and phil . . . a growing imaginative mind . . . an artistic doodler . . . "shall i look sweet or sophisticated?" . . . a pretty gal with the "good word" . . . fond of pickles, olives, and roomie . . . sympathetic . . . diligent . . . impetuous . . . happy . . . "i'm sitting on top of the world" . . . an unsurpassable babe

MARGARET JEAN COMFORT

"gotta get to bed early tonight; i've been up all day" . . . irrepressible high spirits . . . exciting and excitable . . . she'll second any motion . . . a dash of mexican pepper . . . but there's a serious side, echoed in her lovely voice . . . the baby of the seven . . . peg-o'-my-heart

FORREST STARR COMPTON

one of the most active and outstanding personalities on campus . . . good perspective on life . . . steadying and sound influence . . . mec . . . sports editor of the news bureau . . . jayvee baseball . . .phi psi vice-prexy . . . ltc above all . . . poli sci major, but maybe some day broadway . . . much-valued friend to many . . . woody

JOYCE ELIZABETH CONOVER

the nebulous and dreamy about her produce an elusive and quite charm . . . artistic jack-of-all-trades with an emphasis on writing and oil-painting . . . reader of the esoteric . . . mobile, expressive eyes . . . student federalists . . . vocational committee . . . but this above all—zo major . . . relishes bringing abstract philosophical problem down to a practical level

CHARLES MAXMILLIAN CONVER

history major with a first love for english . . . acclimated and readjusted to civilian life at roberts . . . "all the world's a stage" but life upon it is essentially a comedy . . . carefully concealed serious stream that won't stay hidden . . . success . . . husband . . . father . . . typical converism in what the luture owes him: radio writing for him, a football future for the next generation . . . chuck

ARDEN FISH CORDRAY

math major (in a casual way)... never loses her temper, but she isn't insufferably seraphic—or haven't you ever noticed that satanic gleam in her eye?... all sorts of hidden talents... tootles a mean flute... riding in bessie with arden at the archaic wheel has whitened many a swarthmore head ... "has anyone seen my husband?"

RICHARD E. CORDRAY

math, women, and "shaggy dogs"... inexhaustible supply of those s.d. stories... "now obviously———"... math club... came back from the army to find arden... now another one of those married vets... "circumstances make cases"... the kind of person who passes the exam without taking the course... dick

LLOYD RUTHERFORD CRAIGHILL, JR.

native yankee from nanchang . . . varsity track and jayvee soccer with the strength of a coolie and energy of a missionary . . . sca prexy . . . one-man tenor section in the chorus . . . vagabonding through new england with sketchbook . . . no cloud-bound idealist . . . from the mystically sublime to the comically ridiculous . . . krag

JANET CRUM

gal from kalamazoo—with accent to prove it ... "did you say 'crummy'?" ... bridge player plus ... golf team ... a determined walk ... terrific grades with no trouble at all ... "don't you think?" ... faces any situation squarely—feet on the ground ... psych major and loves it ... our strawberry blond ... jan

RICHARD CRYER

lives at home and likes it . . . rugged . . . jovial . . . winning smile . . . football captain '48 . . . varsity basketball . . . scientific bridge . . . phi psi billiard champ . . . always game for a party . . . tp's with ginny . . . plushies with the boys . . . popular . . . unassuming . . . supreme optimist . . . takes life in his stride and finds it swell . . . dick

PETER DALAND

dynamic and forceful . . . immovable opinions concerning life in general and swarthmore athletics in particular . . . thinks students should have more time to devote to sports . . . captains the garnet dog-paddlers . . . jayvee track . . . amazingly sympathetic . . . eager book worm . . . army signal corps flagged him a french fiancee . . . pete

IOSEPH CARLYLE D'ANNUNZIO, IR.

a world of diversified ability . . . from v-12 e.e. at columbia, he came to s'more for an education . . . psych major . . . varsity soccer and basketball . . . ltc . . . concentrated social life to balance his academic efforts . . . and he does everything well . . . gently egocentric, carefully groomed, easy dispositioned . . . joe and life have fashioned a happy working agreement out of each other's contributions . . . josé

JOAN LYNNE DAVIS

spontaneous generosity that captivates . . . as ready for an intellectual conversation as for a thursday night jam session . . . honors ability . . . and for such a little girl . . . "a horn blows at midnight" . . . numberless giggles—the other side of that unfathomable, far-away look in her enchanting brown eyes . . . lynne, the dreamer of the seven

WILLIAM ARTHUR DAWSON

blond scott of queens county . . . makings of a zoologist with a liberal arts curriculum . . . joke teller par excellence, of truly inimitable style . . . the piercing remark that isn't expected . . . the knack for felicitous phrasing . . . active ave and ltc . . . recreational bridge, skating, and horseback riding . . . enthusiastic skier of the "modified sitzplatz" school . . . too original to be predicted . . . loyal . . . responsible . . relatively solvent . . . a self-made legend . . . wild bill dawson

SAMUEL HAMILTON DAY, JR.

intelligent . . . conscientious . . . retiring but affable to those who know him . . . good-natured . . . independent . . . man of the world . . . academically as a social science honors student . . . physically as a romantic voyager to trinidad, south africa, and india . . . unbelievable capacity for consuming caffein tablets . . . printers' ink on his hands every friday night . . . brass bands play when he gets to breakfast . . . wears well . . . sam

HERBERT HERMAN DECKER

poli sci major, sack minor . . . tends to coast amiably through life . . . jazz fiend: "dig that beat" . . . open alert mind leads to frequent reversals of opinion . . . irc, ssa, sca, sn. sda, chorus and stu feds . . . "why, that's absurd: of course i'm right" . . . has that oldtime religion . . . smooth dancer and conversationalist . . . "well, it's in this week's *time*" . . she will have to be a blond . . . herb

ZLATA ELIZABETH DEMEREC

one of the sunniest personalities you know . . . the warmest laugh on campus . . . observant of the big things around her, but never forgets the important little ones that make up life . . . zoology major with varied interests—like irv, f'r instance . . . seems to "belong", whether in the lab, at the piano, or sailing off long island . . . always willing to lend a hand in college enterprises

EDWIN WALTER DENNISON

tall good-humored astronomer . . . originator of eddisms—the sort of jokes at which to groan whole-heartedly . . . usually to be found in his "office" in the observatory . . . one of the sn technicians smart enough to remain on the good side of the administration . . . second generation swarthmore man . . . gets sudden inexplicable hungers for subbies . . . enjoys explaining a math problem to a freshman . . . especially if she's a good looking girl . . . really likes to live in mary lyons and walk to college—on a bicycle . . . special for the girls—if you want to do something different on a date . . . ed

JOHN E. DENTON

put the "a" in athlete . . . serious-minded and sincere . . . gives his all to any job . . . well-known and well-liked . . . enters friendships cautiously, but maintains them tenaciously . . . hard worker: waiter at the neuk, left-end par excellence, good grades, and maralyn . . . quiet, modest and retiring, but with definite ideas . . . deep sense of loyalty to notions of fair play . . . great guy . . . jack

DANIEL PAUL DETWILER

mercersburg grad . . . friends, from the physics department to hans in australia . . . quiet and unassuming . . . between the transmitter and woody finds time for concentrated study . . . square dance enthusiast . . . handy with slide rule and pencil . . . or soldering iron and pliers . . . bothered by qrm and engineers . . . never out of bed before 7:57 a.m. . . . reaches his goals quickly, quietly, and well . . . prefers to be lazy . . . dan'l

JANE DE VRIES

unique filing systems . . . memos to herself: "jane, you must work" . . . lover of movies and food . . . or is it food and movies? . . . a determined pre-med with a promising future . . . blue jeans and checked shirt . . . terrific with a baseball bat or on the diving board . . . wonderful weekends everywhere . . . stability and common sense . . . sees the world straight . . . a breath of fresh air

WALTER S. R. DICKINSON, JR.

most famous for his brilliant and satirical wit and his wholly unique pitching motion . . . sees the inconsistencies and incongruities in people, as well as in political and intellectual life . . . moral purpose often discerned behind this raillery . . . full-fledged humanist . . . sentimental, honest, and highly practical . . . one of those rarities, a constructive critic . . . a purist when it comes to judging neckties . . . dick

JOHN THEURER DIEBOLD

most perfect gentleman on campus . . . sombre, nonchalant, an emotional rock of gibralter . . . but has his spurts . . . an insuccessful policy of austerity toward women . . . sophisticated interests: gilbert and sullivan, broadway shows . . . expert on european royalty, despite an earnest endeavor to be a liberal economist . . . wonderful knack of making you feel terribly important . . . wonderful friend, even when you need him . . . if it's about horses, big john knows all

GLORIA ELIZABETH DISNEY

sultry brunette from dc... strictly a city girl... loves football games, track meets, poetry, and cats... in her next life she wants to be a kitten... artistic tastes and temperament... "it all depends on the individual"... always sleepy... always sol't spoken... if it's a joke, you have to explain it... beth

JAMES MORGAN DOLLIVER

executive type with good looks thrown in . . . goes places and does things . . . president of debate society and phi delt . . . handles the money for sn . . . public speaker extraordinaire . . . delta sigma rho . . . honors in more ways than one . . . majors in poli sci and barbara . . . "turn out those lights" . . . makes music with the orchestra . . . won the war with the coast guard . . . iowa nationalist . . . always well-dressed . . . humor when it's needed and common sense all the time . . . "odd's lud" . . . jim

HERBERT SHALOM DORDICK

an engineer by error . . . a musician by inclination . . . a pianist and composer of no small talent . . . varsity tennis standout with an enviable record . . . looks forward to finding weekends . . . part interest in cracker room . . . an optimist, 'til he fell on his noggin . . . now he's just happy . . . herb

IACQUES ROBERT DUBIEN

chemistry is his passion . . . but there's plenty of interest left over . . . orthodox frenchman where girls are concerned . . . immaculately dressed . . . a perpetual source of wisecracks and good humor . . . conscientious student who achieves a beautiful balance between work and play . . . nearly perfect . . . "for convenience's sake"

SELMA JANE EBLE

jitterbug par excellence . . . swimming record breaker . . . three-letter varsity gal . . . loves life . . . always out-giving . . . ever ready for a party . . . subbies and needlepoint . . . doin' what comes naturally . . . big weekends—darn those saturday classes . . . a-one sense of humor . . . devilish . . . dizzy but lovable

CORINNE JENNIFER EDWARDS

the cheerful soul—you just can't pick a fight with her . . . clock ten minutes last so she won't be more than ten minutes late . . . independence plus . . . history major . . . sn's letter-writing and stamp-licking staff . . . very attached to a pair of bright orange slacks . . . flair for the unusual . . . the personality that warms . . . and brad . . . answers to winnie

WILLIAM BUTH ELDREDGE

big-city boy with an eye for local color . . . multitude of damon runyon acquaintances . . . never-ending stream of anecdotes about chicago mobsters, local politicos, and the cubs . . . irc . . . garnet club star . . . poli sci honors . . . fierce regard for the common man since his life as a deckhand . . . future mayor of chicago . . . bill

JOAN ELLWOOD

possesses a deep sympathy for the common man and the courage of her convictions . . . worked with unions in philly and nyc through the industrial relations committee . . . works for world federalists, too . . . thoughtful and well-informed on many subjects . . . but not one to cram her opinions down others' throats . . . retiring personality with great capacity for friendship and loyalty that is effortless but sincere

RICHARD WHITTAKER EVERETT

a pre-army stretch as god's roommate (in roberts hall) and jesus' brother (in family portrait) . . . independence . . . checkered shirt . . . co-editing the phinx . . . manages to squeeze in an ec seminar here and there among trips to the druggie . . . not averse to a spot of commons bridge or ping-pong . . . all managed with an air of casual efficiency and savoir-faire . . . a man of the people . . . dick

MICHAEL JOHN FABRIKANT

bar-tender extraordinaire . . . panama under the auspices of the u. s. army . . . unable to hold onto money . . . reserved seat in the friends' libe . . . sly disregard for restrictive college regulations . . . life a succession of papers . . . but work rarely interferes when there's pleasure to be had . . . life's a lot of fun seen from inside a plaid shirt . . . claims both nyc and clinton corners as residence . . . "my name, sir, is spelled with a 'k'" . . . mike

MARY BUNTING FALLIN

friendly . . . everyone who knows her likes her . . . gwimper . . . argyle socks bound for carnegie tech . . . perfect roommate . . . always cheerful . . . always has a cold nose in the winter . . . passion for kittens . . . dependable . . . knows the words to every popular song ever written . . . puckish smile

JOYCE FAVORITE

those plaid shoelaces . . . bright-eyed . . . can talk to anyone with ease . . . "my word!" . . . playing or cheering, just so long as it's sports . . . community conscious . . . knows everybody . . . "don't you read the bulletin boards?" . . . candy for comfort . . . sleepless wonder . . . bursting with little bits of news . . . "you just have to come up and see my pictures!" . . . her "buddies" . . . jo

HANS ERNST JOHN FEIGL

brazilian socialite with antipathy to razors and ties . . . loud bark, but little bite . . . a balanced compound of night life on broadway and goethe in trotter . . . has austrian pastry shipped direct to his room . . . shouts of "oyyy-ler" in the quad at night . . . mass of contradictions . . . with a tremendous understanding of science and the arts . . . big john

MARY JEAN FINCH

irrepressible love of the ridiculous . . . rare sympathy and understanding . . . eyelashes extraordinaire . . . likes to theorize . . . frankly, when does she study? . . . can't say she didn't *try* to make all her friends history majors like herself . . . pervasive sense of fun . . . inner poise to meet every situation . . . "coflee—black" . . . finchie

JOHN WYMAN FISKE

electrical engineer in honors . . . finds time for many varied activities . . . kwink, camera club, sn . . . continually in a rush . . . very energetic . . . engineer with an intellect . . . new england background . . . more recently from new york city . . . a good sense of humor but a very serious mind . . . republican with a social conscience . . . knows what he wants and how to get it . . . probably headed for engineering management . . . self-assured

ROBERT FORSTER

back from the army a complete individualist . . . still hankers after the bohemian existence . . . summer taxi driver . . . return to naples . . . denounces hypocrisy and the double standard . . . "those lip service liberals" . . . thorough student in history honors with an intellectual bent . . . voltaire and rousseau . . . purposeful tread . . . gregarious but disdains wheeldom . . . "mary" section please . . . bob

ROBERT BIRDSALL FREAR

sn's technical ace . . . a tech for the navy . . . economics for a peacetime practice . . . an oldie left over from 1942 . . . but still the same old careless guy . . . crossword puzzles—but the way he cusses 'em, they must be his pet peeve . . . so far he's maritally unburdened, but he still gets letters from africa . . . he never carries money; q.e.d.: "who gets the paper tonight?" . . . one of the independents around campus, though ardent avc man . . . bob

ROBERT FRANK FREMONT, JR.

the old man of the sea . . . six years with the merchant marine . . . chiel's papers . . . a mate's rating . . . day student . . . m.e. . . . careful . . . precise . . . conscientious . . . easy-going . . . efficient . . . practical bent . . . part time employment of his avocation . . . hard work wins out . . . bob

RUTH FRIEDENTHAL

political spark plug . . . social consciousness . . . tremendous enthusiasm for everything . . . ssa, irc, pca exec, and phoenix . . . fashion plate with a penchant for fabulous blouses . . . petite visionary . . . dynamic ability to carry her ideals into action . . . eloquently profound expositions of phil at two a.m. . . "it was terrific"

HERBERT HALSEY FROST

vet of the navy air crew . . . always in a good mood . . . piano style all his own . . . varsity lacrosse . . . jayvee lootball . . . even his ancestors were deeyous . . . carrying on the tradition with enthusiastic loyalty . . . the kind of guy who knows everyone . . . and everyone who knows him likes him . . . Iroat

CHARLOTTE LOUISE GARCEAU

shrewd insight coupled with ingenuous simplicity... enthusiastically conscientious math major, with leanings toward research in astronomy... fluent german... clarinet in orchestra, alto in chorus... worries, but takes time off for waa and basketball, brooklyn and princeton... universally beloved... char

BUCKLEY R. GARRETT

pet peeve is his car—but it gets him here from lansdowne . . . army man . . . pre-war baseball and football . . . varsity basketball . . . marital status: "single, but hopeful" . . . a phi psi who's still an engineer . . . doesn't object to dropping his slide rule for a chat with the boys . . . buck

WARREN T. A. GEARY

short, dark, and dapper . . . pet peeve is landlords who don't take babies . . . spent his frosh year at rutgers . . . future history prof . . . erstwhile active member of the sn workshop . . . spare time now taken up by wife and honolulu-born son . . . daily travels from the wilds of roxboro . . . geery

JAMES HOPKINS GIFFORD

industrious civil engineer . . . treasurer of the slide rule club . . . ex-seabec . . . lacrosse . . . tennis racket and skis under his pillow . . . always time to check the latest paper or magazine . . . deep interest in problems of the day . . . no ordinary personality . . . consistently goodnatured . . . pipc fanatic . . . keen sense of humor . . . deeyou wit . . . promising future . . . giff

HOWARD SOTHORON GILLIAMS

lost all his beautiful blond hair in the '45 haverford raid . . . it grew back in the navy . . . spring weekends sailing his boat in jersey . . . spends more time in the sack than any other two men living . . . civil engineer and phi sig . . . where there's suds, there's hope

JOHN FRANCIS GOERTNER

fine combination of good sport and good student . . . as physics major occasionally loses contact with the here-and-now . . . may need a substantial jolt to restore consciousness—otherwise quite normal . . . inimitable grin . . . outing club . . . phi delt . . . ability coupled with a good disposition . . .

MORTON JEROME GOLLUB

a pre-med with a four-college background . . . frequent patronizer of the bridge games in commons . . . a generous dispenser of the omnipresent stock of apples in his room . . . actually enjoys the hike to and from mary lyons . . . possessor of a highly analytical and introspective mind . . . a connoisseur of classical music with an intense dislike of the modernists . . . officiates at cutting every other wednesday . . . chases down innumerable people to interview for the phinx . . . enjoys and revels in swarthmore's liberal atmosphere . . . glub

DONALD JAY GORDON

tives in long island and the mountains . . . says sut-al lor subtle . . . "that's real smooth" . . . takes his realism with a sprinkling of stardust . . . brunettes with bangs . . . homework always expendable . . . headed '47 harrisburg delegation . . . pet peeve—cold winter nights . . . on laughing terms with the world . . . specializes in the siesta . . . just call for flash or don

FREDERICK GREEN, JR.

refugee from penn... marine corps fighter pilot on guadalcanal... passion for airplanes... radio ham—call w3ewf... another one of reaser's men... married life in grace park—with a wife whom he definitely won't allow to wear slacks... proud papa of four-year-old ricky... fred

RICHARD S. GREEN

never in a hurry . . . always time for kwink . . . jayvee baseball . . . the rest of the time holed up in martin labs . . . good reason—zo honors . . . bluntly tells coy girls just what he thinks of them—and his comments are not exactly flattering . . . but his fatal weakness, oddly enough, is women . . . studying—"that's for kids!" . . . but he's just a big wavy-haired kid anyway . . . dick

THEODORE GREENSPUN

day student with an impressive attitude . . . voluble intellectual . . . liberal socialite . . . literary creative writing . . . dodo . . . times notoriety for culture for the masses: art for the lower classes . . . social psyche . . . talkative . . . tries for the impression . . . "the aesthetic view" . . . ted

RICHARD MARVIN GREENSTEIN

pre-war vintage swarthmorean . . . and as solid a fixture in the garnet line then as now . . . athletically-minded and inclined as the day is long . . . brain power to spare, too, when applied . . . if you didn't know, there are other interests besides jerry . . . ex-aaf fly-boy with an enviable record in the pacific . . . the ideal doctor . . . "try a-z-o" . . . all around is putting it mildly . . . you've missed something if you've never enjoyed his friendship . . . greenie

JANE MASSON GROSS

the lady engineer in honors . . . reads organic for diversion . . . "ugh, this calculus" . . . math and music . . . orchestra . . . discusses all subjects from english to electronics . . . "thy modesty's a candle to thy merit" . . . perseverant . . . two-year hiker from preps . . . shy blue eyes . . . janie

SARA MARGARET GWYNN

everything is relative and temporary . . . ignore it and it will go away . . . enthusiasms ranging from astrology to winnie the pooh . . . active and varied social life . . . unequaled and never dampened sense of humor . . . best of rainy day companions . . . peggy

JEANNETTE LOUISE HAAS

math major with a sense of humor . . . gets excited about movies, people, places . . . that rarity: the perfect bridge partner . . . the long trip home to marietta well worth it . . . can't stay away from magazines . . . writes delightful letters . . . and notes to people . . . loves to see people happy and helps to make them so . . . jenny

HOWARD FRANK HARRIS

one of the lew old-timers left from the class of '45... only his roomy hears his most frequent sayings—definitely not for public consumption... conscientious student... bottle of scotch from the dodo... the rack is indeed an essential part of college—at least, eight hours a day... favors the genteel masculine pleasures—like throwing light bulbs... oh, pinless one... lost his phi sig jewelry on one of his frequent trips to saratoga springs—judy goes to skidmore... stinky

ERIC GUSTAV HEINEMANN

aptitude for asking the "wrong" kind of question . . . the kind with no answer . . . drives to the core of every issue . . . impatience with irrelevancies . . . the frightful beetling of his brows is symptomatic . . . lacks only beard and pipe to look like the typical professor . . . and he threatens to acquire both

CHARLES ALLAN HERNDON

politeness personified . . . reserved and quiet with strangers, but interesting and likeable among friends . . . someday hopes to have a house in the maine woods with an electric fence around it . . . often confused . . . likes music and the spirit . . . tuba in the orchestra . . . member of the chorus when time allows . . . a coke fiend who never returns bottles . . . charlie

CHARLES JOHN HESNER

e.e. courses with commons labs in bridge and ping-pong . . . gallant . . . admitted hedonist . . . frank . . . a little dogmatic . . . plays determined court to dame fortune . . . grand-slam chuck

ALICE HEYROTH

just mention cincinnati! . . . sincere concern for world and social problems . . . lovely soft curls . . . twinkling eyes reflect a bit of the ironical in her humor . . . perpetual motion with the knitting needles . . . earnest, thoughtful manner . . . happiest with a cup of coffee and good conversation . . . plans for an interesting future . . . allie

WARREN PATRICK HIGGINS

belated arrival via seton hall and a long path . . . well traveled soldier . . . more good yarns than most . . . one of the best all-around athletes ever to hit swarthmore . . . outstanding on gridiron, court, and diamond . . . idealistic ec major with practical ideas . . . phi psi and book and key . . . on the way to harvard business school . . . antirollo . . . sure success . . . lefty

ROBERT WARREN HILLEGASS

a mickey rooney grin, but there the resemblance ends...orderly, neat, efficient...anti-souvenir; hates to save anything...an english major with a serious approach to the books...quoter of odd remarks...emerges from the depths of the deeyou lodge to hit the dining room door at precisely 7:59½ each morning...former "inmate" of the coast guard academy—and glad to be out...record-collector...baseballer...that gal at penn state...bob

RUDOLF ERNEST HIRSCH

ec major . . . then maybe into high finance . . . bats about wagner . . . actor and engineer at wsrn . . . Itc property committee . . . homemade spaghetti dinners . . . studies best at 2:00 a.m. . . . "I consider myself the last proponent of free enterprise on these rolling green acres" . . . rudy

WILLIAM JAMES HIRSCH

the kid from brooklyn . . . stick a cigar in the mouth, and there's the biggest little guy italy and the 15th air force had ever seen . . . pour in a few glasses of chianti, and there's a truly charter member of the s.p.i.c. . . . add a dash of student council, student affairs committee, sn, irc, and ltc . . . recipe for a "hellofagoodguy" . . . the head

THOMAS VICTOR HODGES, JR.

disillusioned by the army about engineering and economics . . . returned determined to sample every experience from drugs to dancing . . . hamburg show sparkler . . . deeyou . . . expert at getting from 30th street to swarthmore on a 49th street ticket . . . perennial freshman behavior from neuburg and field . . . under guise of psych major, studies human beings in hopes of becoming one himself . . . thurber-esque distortion of perceptions . . . tom

JOHN HERBERT HOSKINS

handsome but reserved . . . distinguished mien . . . elusive, but with an engaging grin . . . neat, steady, and efficient . . . new hampshire is "home" and "heaven" . . . skiing, and expert square-dancing . . . tennis manager and enthusiast . . . worried soc head . . . wsrn . . . phi delt . . . poli sci . . . conservative rare among bull majors . . . diplomat . . . "read this nam pamphlet for the answer" . . . johnny

NORMAN LLOYD HOULBERG

gracious gentleman of the old school . . . generous and well-liked . . . moderate in speech and habits . . . prone to self-examination . . . "why am i here, anyway" . . . major in spanish with a serious intent . . . destined for work in south america . . . inspired strummer of second-hand guitar . . . wields the long-handled spoon . . . slaves over accounts for phi delt . . . norm

LESTER CALLOWAY HUNT, JR.

brown-eyed westerner from cheyenne . . . personality kid . . . brilliant witticisms in spanish class . . . voice of experience on tortillas and mexican senoritas . . . sigma nu at the university of wyoming . . . give the man a horse he can ride . . . talked his way into delta sigma rho . . . aversion to efficiency . . . bud

ALFRED CURTIS HUNTING

physics honors, but only as a datum point . . . philosophy (humanism) . . . the drama . . . kahlil gabran . . . fast . . . poli sci . . . cutting collection and chorus . . . a light will be burning in c section any hour of the night . . . bouncing, snappy stride . . . one of the "brothers" of the summer of '45 . . . violent polemicist against social institutions, double standard, and social pampering . . "by very definition!" . . . al

MAN KYN HYUN

in korean, "man" means "latest treasure" . . . he's an ambitious poli sci major . . . a transfer from the seoul national university . . . after the war, he worked for the provisional government in korea, in the capacity of director of the political research section . . . man is well-dressed, jovial, and extremely polite . . . and has made quite a number of friends in his stay here . . . a brilliant student, his modesty and erudition are tremendous . . . he is a hard worker, and a conscientious "seeker of the truth"

WILLIAM BATES JAMESON

likes everybody and vice versa . . . inveterate tease . . . dependable phi delt . . . maestro of the ping-pong paddle . . . asce prexy . . . beaming smile available and in use nearly all the time . . . c.e. with commons minor . . . studies at least twice a month to draw down consistent a's . . . discusses bridge and bridges with equal erudition . . . recently discovered that s'more is coeducational . . . highest and final authority on how to do engineering problems . . . "at the bethlehem steel company they—" . . . bill

ATHALIA CRAWFORD JAMISON

a walking comedy . . . laughs at anything . . . playful . . . "boy, girl" . . . loves to tease . . . endless pep and enthusiam . . . cheerleader . . . "come on, will you, let's fight" . . . majoring in sports . . . letter girl of hockey, badminton, and tennis . . . serious moments, too . . . practical . . . outing club . . . race relations . . . face painter for ltc . . . spunky exterior . . . bobbie

WILMER ATKINSON JENKINS, II

intellectual athlete . . . restless sacker . . . almost always on the books . . . sarcastic sense of humor . . . soph class prexy . . . phi delt social chairman . . . i.f. council . . . social committee . . . "i can't do it, i'm in honors" . . . cliche hater . . . tremendous party boy . . . politically unconscious . . "wanna buy a stamp album?" . . . wheaton weekends . . . june . . . bill

JOHN STEWART JOHNSON

only full-time practising esthete at swarthmore ... busy with cutting, cooper foundation, editing the dodo, and occasional english seminars . . . burdened with a sense of humor and an intuitive manner of speech and dress . . . spends vacations imbibing alternately in manhattan and jackson heights . . . recently re-canted—took up bridge in commons and di-di anywhere east of the alleghenies . . . stew

RICHARD AMBROSE JOHNSTON

backbone of kappa sig . . . softball pitcher nobody could hit . . . frustrated big leaguer . . . fashion plate . . . keeps marion and lin's in business . . . watch him turn on the charm . . . remember his run against muhlenberg? . . . big economist someday . . . "three no trump" . . . definitely a good man . . . johnny

HELENA MARIE JOURDAN

dry wit . . . rare abilty to laugh at herself . . . third finger, left hand . . . letters Irom art . . . "that's stoopid!" . . . connecticut drawl, believe it or not . . . always has lots to do, always gets it done . . . strong loyalties . . . rational approach to life but there's always the funny side . . . mischievous smile . . . butch

HERBERT KAISER

spasmodic student with conscientious intentions ... history honors and a cup of tea ... everybody's opinion both his meat and poison ... penchant for avc ... ltc with a hasty heart ... always intellectual ... eager politician without being repulsive ... social animal, so say the girls ... secretly frustrated to be domesticated ... herb

ARTHUR LINCOLN KAPLAN

left for the army as a math major and returned to be an e.e. . . . three years as one of uncle sam's weather men . . . chairman of ltc construction crew . . . phi sig pledge . . . garrahan's resistor expert . . . weekly trips to philly to see if sally won't provide the remedy for his bachelorhood . . . art

LOIS LAEL KELLY

bright smile . . . generous and sweet . . . always ready to help . . . Itc secretary . . . jayvee hockey and archery . . . junior class secretary . . . poli sci and phil in honors . . . westtown . . . picture album of summers in maine . . . she can rave about it for hours . . . pint-size package of pep

JOHN IRVING KENNEDY

from stony point . . . sails on hudson . . . seems to spend time studying . . . philosopher and psychologist with mathematical flairs, in honors . . . 7:50 riser . . . loses to mrs. selmes about one-in-twenty . . . solid careful thinker . . . quick to laugh . . . going to law school, and places . . . jack

JOYCE BALDWIN KIDDER

poli sci major, in honors . . . intelligent, penetrating mind . . . good taste in books, music, and painting . . . debussy and el greco among her favorites . . . loves pageantry—desire to see the vatican and a coronation . . . not mechanically minded . . . long bike rides . . . home to yeadon for weekends . . . quietly friendly . . . enthusiastic

ANN WINSOR KILLOUGH

"chief mechanic"... passion for taking things apart—but they really work when she puts them together again... sets her clock at night... sleeps through the radio in the morning... sarcastic sense of humor... "that's what we like to hear!"... ec major—statistical, not domestic... with a future in business... no theory in a vacuum for this gal... "next time i have some spare time—"

MORTON COWLING KIMBALL

"rochester is *not* a one-industry town—but kodak, kodak, kodak"... mixes better "dog's noses" and knows more emily post than anyone else on campus... extremely fond of bright bow ties, cocktails before dinner, and neatness... "were you born in a barn?—moo!"... solid citizen, but he's got a "past" stored in a little grey cell in key west (navy, you know)... sings untranslated wagner as he careens down the halls of wharton at five a.m. ... perhaps best described as a rather gaudy victorian ... "mo without an e"

RICHARD WILLIAM KIRSCHNER

transfer from columbia . . . day student but well-known . . . fifth year of varsity tennis . . . ever-ready to swap quips with the best of 'em . . . generally found in his "office" in the libe basement . . . embryonic student of pipe lore . . . ardent believer in the right of the merchant marine to a g.i. bill . . . few will forget his campaign for the honor system . . . dick

ROY FREDERICK KNUDSEN

the great white father of engineering knowledge and slide-rule efficiency, needing guidance only during those early morning somnolent hours . . . modest of glamor . . . was an aaf captain . . . phi delt songster . . . camera virtuoso . . . had last birthday several years ago . . . kanute

EVA FRIEDA KOCH

tall, dark, dignified and intelligent . . . but watch for that twinkle in her eye . . . well travelled, well read, well informed . . . a flare for red clothes . . . linguistics honors . . . "eva, i just can't take my cutting period tonight" . . . harrassed but it gets done—and done, oh, so well . . . fun to talk with, fun to be with

JOHN BRAMPTON KOELLE

salient characteristics—keen. incisive, anecdotal, sometimes caustic but invariably subtle wit and repartee . . . connoisseur of better vintages and foods . . . delights in charles addams, victor red seal, and heartily endorses sentiments of ogden nash . . . "d" section's shower-room story teller, also sparks all night cram sessions with 16-cylinder genius . . . only at swarthmore to integrate his personalities . . . deep-sunk roots preclude changes in this patroon-style bon vivant

ARNOLD IRVING KRELL

e.e. from ohio state via the astp... gives the fuses quite a workout... two chief activities: trying to find mccrumm re physics problems, and entertaining the wife marjorie... can make the philly local in one minute flat with the help of kaplan's car... loves to push buttons and pull switches... arn

ELIZABETH ALBRIGHT KSCHINKA

english, history, and phil honors fit her humanitarianism...philosophical pipe-puffer of gentle humor, wisdom, and a sense of the ridiculous... conscientious and efficient, whether collecting clothes for fsc or functioning as president of pitt...loves her pennsylvania mountains, driving, and animals... spritely curly hair and sparkling brown eyes frame an enthusiastic spirit...lisby

ELEANOR MAIE LACY

red-headed fourth-easter from china . . . outward poise belies spark of humor in her eyes . . . psych major in honors—has already acquired an understanding of human nature not to be found just in text books . . . hockey and basketball . . . irc . . . vocational committee . . . race relations . . . still has time to be a cleveland indians fan . . . "first to bed—last to rise" . . . that's ellie

EDGAR KENDALL LANDIS

the "landis legend" from geneva and paris to the canadian woods . . . swarthmore's gift to complete liberation . . . progressive schools did it . . . navy fly-boy . . . four seminars per semester . . . plushies or phil's for beer and bull . . . serious side and deep convictions, too . . . knowledge of history and french make him honors material . . . ken

GLORIA LANE

varied record collection with a special place for dorothy shay . . . always ready for adventure, but don't ask her to climb the water tower! . . . maintains an ideal balance between studies, the extra-curricular, and fun . . . the tailored type . . . coffee at the druggie—no cream . . . jayvee swimmer, gwimp, student affairs, and inevitable office-holder—in short a mighty busy gal, but always time for a "coffin nail" and a chat . . . spontaneity . . . "good gooby" . . . phi delt pin . . . cush . . . glo-bell

ELLIOT RICHARD LANG

"may i borrow . . .?" . . . Irustrated engineer . . . ex-navy fly boy . . . swarthmore v-5 unit . . . staunch democrat . . . sounds off at will . . . thinks new look is not "it" . . . Irom brooklyn . . . "we were robbed!" . . . goes home often for a well-stacked reason . . . passion for sailing that even the navy couldn't destroy

BETTY JO LARSH

lots of style . . . room in parrish with all the comforts of home—visitors always welcome . . . wonderful listener for any joke . . . sense of the ridiculous in life . . . warm understanding balanced by active mind and line sense of humor . . . record collection yea long . . . lloyd's sword and shield . . .

HOWARD THOMAS LAYCOCK

a runner from way back . . . german major . . . "think i'll cut this morning—let me sleep" . . . an off-campus life . . . next stop—divinity school . . . musical, too . . . pet peeve: people who make "funny" remarks about short haircuts . . "this morning we learn the backstroke" . . . easy-going and affable . . . answers to steve or howie

BARBARA EDITH LEA

unquenchable enthusiasm for everything . . . started a good neighbor policy all her own . . . "life is so complicated" . . . but what complications! . . . "oh, my shattered nerves" . . . that rare and wonderful quality of faith in human nature . . . bright hair matching a bright personality . . . the redhead of the seven . . . bubbling bobbe

JOAN LeVINO

expressionly piquant eyes . . . fine arts major—
"no, i just study pictures" . . . passion for rearranging furniture . . . fridays behind the new
yorker . . . sundays behind times crossword
puzzles . . . former sn jill-of-all-trades . . .
perennial varsity archer . . . always argyleing
. . . "you! you haven't done your write-up yet!"
. . . snowballs aimed at her center window . . .
ever-ready and effervescent laughter . . . vinnie

LLOYD WILLIAM LEWIS

a liberal from larchmont . . . interests are betty, sports, and politics—in that order . . . bedroom eyes (she claims) . . . swings a mean tennis racket . . makes like al jolson with april showers . . . constantly buying orchids—for phi delt . . . creator of sage thoughts . . . serious, industrious worker with a touch of josé . . . "gotta get in shape" . . . that satisfied settled look . . . early riser, first for breakfast . . . future executive in denver

TZE-KUANG LI

leo li, or better, lao li, is swarthmore's confucius . . . quiet, modest exterior hides brilliant mind and fun-loving heart . . . engineer by profession . . . philosopher by avocation . . . avid reader . . . knows chinese classics almost by heart and has read much translated western literature . . . a geography and history fiend . . . plays seven musical instruments . . . more self-effacement and sincerity plus such profound knowledge in one friend is hard to find

JOHN HALSEY LIRIO

will of his own with a genuine consideration for the feelings of others . . . diagram your jokes for him . . . history major with inquiring mind in many fields . . . every sunday finds him somewhere between bass and tenor on abide with me . . . incipient raphael, shown in the margins of his poli sci notes . . . loyal in friendship . . . "carry on" . . . jack

SUSAN MEHRER LURIE

kindly, interested, and understanding . . . that cute giggle . . . startling red hair and apple cheeks . . . psych major in honors . . . studying in the window . . . always worrying about something . . . if it's not argyles, it's cables . . . ltc, race relations . . . parrish fire corporal . . . sensitive to the finer things of life: music, painting, and shakespeare . . . susie

PAUL CHRISTOPH MANGELSDORF, JR.

happiest when surrounded by odd pieces of graph paper . . . known, among other things, for his black-rimmed spectables . . . disciple of bix beiderbecke . . . majored in chem, poli sci, botany, and physics . . . power of oblivious concentration . . . not envied for his taste in clothes . . . never without a complete change of furniture . . . only one zombie to this customer . . . mangel

WILLIAM HENRY MATCHETT

a tremendous library, increasing daily, and he's read most of them, too . . . writes—poetry, short stories, a novel . . . three years in civilian public service . . . friendly, expansive, orderly, searching . . . a keen sense of the important things in life, and a deep interest in what life means to himself and others . . . staunch supporter of student friends meeting . . . deep convictions which are always being put into action . . . actively interested in the study of the records of the life of jesus . . lunches at the nookie . . . an ardent bird spotter . . . bill

DOROTHY LOUISE McCLOSKEY

quips in an elfish manner . . . wide assortment of jokes—reinforced after every weekend home . . . "thank god for small favors" . . . "what'll i do now?" . . . submarines—on doctor's orders . . . dancing feet, amazing memory for song lyrics, an incurable whistler—in fact something about her personality that says "music" . . . "but he's so cute!" . . . impish . . . clever . . . fun . . . the party's not complete without dorie

Removal of Suspension Follows Week Of Discussion and Arbitration

By JANET FRIEND

On Friday, February 13th, President John Nason an-On Friday, February 18th, President John Nason announced his decision to suspend the PHOENIX from publication. The immediate cause of the action was an editorial which appeared in the PHOENIX of January 16th, commenting upon the book by Afred Kinsey and his associates, "Sexual Behavior in the Human Male," signed by the editor. The editorial, said Mr. Nason, "culminated several semesters of irresponsibility by the PHOENIX staft."

Bells Ring Again neeting called to protest the neeting called to protest the set of investigation by the commentation of the previous previous Again and the protest the neeting called to protest the nee of irresponsibility by the PHOENIX staff."

The actual suspension lasted only a week, though PHOE-NIX publication was delayed for a longer time; conferences

CAMPUS COMMENT

Pagan Cultists Worshipping Oyler Lone Female Infiltrates;

Modernizing Curriculum

Negotiating Team

It has been the policy of the Phoenix in the past to criticize Collection in all ways, shapes, and forms. For change, we are going to advocate a constructive change in regard to Collection. Why not have it at 10 AM. Instead of 11?

The race to the dioing hell is a disgrace, an insult to speakers, performers, or whoever has been featured on the program. Furthermore, the eatended chow line not infrequently works a hardship on the studeot with a one of clock cless or leh, not to meetion the strain on the dining room personnel.

Classes now meeting at tee on Tuesday, Thursday, and Saturday could be switched to eleven for that day rouly without much hardship to the studeots, since they itt B Lilly, chairman expense of the studeots, since they itt B Lilly, chairman for combining would still get to the dioing room before noon.

We also maintain that this move would at least decrease lack of student interest in Collection programs. Full of the studeot interest in Collection programs. Full of the studeoth interest in Collection programs. Full of the studeoth interest in Collection programs. We also maintain that this move would at least decrease lack of student interest in Collection programs. Full of the studeoth interest in Collection programs. Solve the studeoth interest in Collection programs. Solve the studeoth interest in Collection programs. Solve the studeoth interest in Collection programs are such with undergraduate study. PRIZEESSAY

The Day of a Swarthmore Couple: Feing a Plea for the Recognition of the Proposition that Sex Is Here to Stay. Thereby Driving it Indoors.

PECULIAR paradox prevails here at Swarthmore. On the one hand we have the ostensible off.cial ignorance of the sex urge. This is a bad thing. On the other hand we have the campus literally decorated with couples in various stages of intricate physical entanglement. This is also a bad thing. Yet, oddly enough, I have a neat little theory that the "off.cial ignorance" causes the "public demonstrations." Indeed, on a warm spring day the ubiquitous dogs are hard put to out-do the student body. Though I must reluctantly admit that the dogs are far more efficacious, although none the less blasé.

Now, I personally have no bones to pick with these public lovers, except perhaps to note (from the point of view of the artist) that they are hopelessly amateurish. About the only time they ever bother me ris when I choose to amble about the omp time they ever bother me ris when I choose to amble about eampus in detathed meditation, "contemplating the ultimate," trip over a pair of intertwined IQ's, full, and deal myself bodily harm. Otherwise, they could give vent to their animal spirits in Gimbel's window and I wouldn't give a damn.

But I am passionately attached to Swarthmore, and I hear that this sort of thing just "doesn't look good." And furthermore, any level-headed sophemore will concede that the situation is getting out of band when a young thing walks into the Dean's office and demands "athletic credits" for her nocturnal activities on the football field Viewed in this light, it is a downright threat to the future of hockey and borseback riding at Swarthmore. Not to MENTION the shock it gives the RICH parents of prospective female students. Let us then trace the day of a Swarthmore couple and hope that in the process we shall find a way to alleviate this deplorable state of affairs.

Open blossom from silver bird Made no sign of spring.

DODO

Of Human Dignity

Of course I love you, darling. If all the tears I've shed for you were stretched end to end, They'd make a crystal path to China.

Those are only tears. But damned if I Will make myself a path for you to walk on To China or to Hell, And tremble with liquid ecstacy because Your shoe has touched me

A Word to The Papooseless Is Useless

Just like a hunter who comes home quite mooseless, Or a train in the freight-yard which sits there cabooseless. Perhaps like a drunk who finds he is boozeless, Or a ship in the drydocks rusty and cruiseless, Or maybe a hangman who discovers he's nooseless: A girl will discover that men think she's uscless Until she can learn that it's wise to refuse—less.

LUCY HAYES

The Remarks of Mary Tudor Early in the Morning, 17 November 1558

Look how the arras ripples The fountains fall and roses bloom in light, And there's some whisper in this hour. Maid, Maid, who cry, who call, And why do they condemn me as I die?

I made a mighty candle of my realm To place upon the altar of the Sun, And lonts I made of lens, too often red, But better than the color of brush reeds. I made this land a prayer.

Forgive me Philip, God. And you, the land, if I too harsh Did scour you of your Ridleys And your sin. Forgive my litanies If I did chant too loud.

And still you cry, behind the arras, In the yard, and down the cobbled street And why? I hear the murmur now, Mourning me with laughter, Mary And the Cardinal, with laughter and

The chant, the chant of "Calais" in the streets, Of "Calais," a moiety, a blotch of grubby earth, Calais. So thus the arras mourns, for Calais. Saved you your England's soul and lost her Calais? Die then unmourned

The litany is over, begin the Mass Judge me, O Lord, For I have lost Calais.

Brannock Burns' Finest

VER since the days when Brannock Burns was a wee 'un tagging after his da's kilt tails, he had determined to produce the finest batch of whiskey in all o' Scotland. That he did so is a testament to Scottish determination, but, it would seem, his success went unrewarded. Just as the eighty-nine year old Scot bent to test the ed product, his foot slipped on the heather (some say) and he fell into the bubbling vat. Witnesses, however, are on record as having sworn that Burns went under with a smacking of lips and a twinkle in his eyes. That, in brief, is the legend which perpetuates the memory of a Scot who really threw himself into his work.

The tame of that last batch of Brannock Burns' toured the world. Every port touched by Her Majesty's Navy heard of this whiskey. Explorers and missionaries, too, carried the word back into in all o' Scotland. And some have attributed to Britain's refusal to export a sample to Kaiser Wilhelm's birthday party first rank in the long complex, list of causes of World War I.

So it was, then, that in the Spring of '42, a group of jeeping GI's—none of them could have been over twenty listened with rapture and amazement to a hospitable family recount the glory that had been Scotland's.

After Brannock Burns had been fished out of the vat, and after everything possible had been wrung out of his clothes, it was found that what was left was hardly enough to fill a quart bottle. Following the first tasting by Burns' helpers, it was unanimously agreed that each of the party should be allotted five square inches of the soil surrounding the vat. The little plots were then taken home and either squeezed like a lemon or sucked like a peppermint stick, so

Little Stories in Psychology:

ALBERT AND THE RABBIT

When, for example, a child who already shows startle and other so-called fear responses to loud sounds is presented with a loud sound so-cancer terr responses to roud sounds is presented with a roud sound and a rabbit, he becomes conditioned in a very few trials so that the presence of the rabbit alone will clicit startle, crying or related behavior." Boring, Langfeld and Weld, pg. 800.

"Good morning, children," said the professor, beaming on the shining rows of vacuous faces, "would you like to hear a story about conditioned responses today?"

"Oh, yes!" chorused a girl on the front row.

On, yes: coborused a giri on the front row.

"Well, then, I will tell you all about Albert and the Rabbit.

"Albert was a typical red-blooded, healthy American boy, just like most of you." (Three Kappa Sags beamed and squirmed self-consciously.) "Ilis mother was a widow—an educated, enlightened and even emancipated young woman who was extremely enthused about modern ideas and more specifically about the young men who dealt in those ideas. During the time in which our experiment takes place she was being 'sparked'." (the professor, a lovable old fuddy-duddy in

quaintly archaic expressions), logist, Dr. Ahulia K. Testosest.

THE SWARTHMORE DEBATE SOCIETY

A more widespread interest coupled with a full schedule has given this year's edition of the Swarthmore Debate Society one of its very best seasons. The exceptionally large number of members participating in intercollegiate debate competition was responsible for the growth of Swarthmore's reputation as an important center of the forensic art. The crowning achievement was the capture of the Pennsylvania state championship this spring. Increased tournament debating and a more active program of individ-

nal debates has made the Debate Society an active campus force. Indicative of the growing importance of debating at Swarthmore is the fact that the Ben Franklin Debate Tournament is scheduled here this spring. Always with room for more members, the Society exists to serve those who are anxious to either engage in intercollegiate debating or to learn how to speak in public more effectively. The present manager of the organization is Jim Dolliver, with Mr. Beik as advisor.

MATH CLUB

Throughout the past year, the Mathematics Club under the presidency of Carl Levinson has presented to its members, its usual full schedule of speakers. The programs were so arranged that half of the talks were given by professors and outside guests, and half by the students. Among those who spoke were Doctors Brinkman, Garahan and Schonberg, Irv. Dayton, Lou Howard and Bill Lichten, and the subjects ranged from "Conditionally convergent series," to "Kinematics," and "Differential Analyses." Besides sponsering the problem contest which is open to all students, the Math Club put forward several contestants in the Putman Mathematical Nationwide contest.

The Race Relations committee is dedicated to the practical policy of campus and community education and action in order to overcome racial prejudice, intolerance and discrimination. As a student organization, the committee is primarily concerned with discrimination as it manifests itself in the field of education, but thru comunity projects and connections in Swarthmore it has been able to prevent its own isolation.

For the student body, the committee has presented a number of speakers who have discussed discrimination from all aspects, from psychological explanations to techniques in breaking down racial barriers. With regard to the college itself, the Race Relations group has been interested in investigating the possibilities of a more representative student body. In the community, the committee has investigated a number of problems which lead to the necessity of organizing some form of a community racial council.

The Swarthmore committee was the parent organizer of the intercollegiate organization, and Andy Wolf is the Chairman. The committee is also cooperating with the NSA as regards the setting up of an inter-racial clinic.

STUDENT CHRISTIAN ASSOCIATION

The Swarthmore Student Christian Association is an interdenominational organization open to all students who are interested in learning more about religion, and especially Christianity as a way of life. In addition to the regular Sunday evening meetings which were addressed by faculty members as well as representatives of both the Friends Service Committee and church groups, the SCA has sponsered a clothing drive, contributed to the World Student Service Fund, and cooperated in a work project.

The SCA is a participating member of the national Student Christian Movement and the World Student Christian Federation. Officers for this year were: Lloyd Craighill, president; Maryly Nute, secretary; and Dick Spruyt, treasurer.

RACE RELATIONS COMMITTEE

First Row: Foster, Hershberger, Jenson, McDaniels, Miller, Spenser, Weber. Second Row: Redding, Robertson, Rounds, Hackett, Conway, Brightman, Hopkirk. Standing: Peele, Kimball, Kurtz, Epstein, Rashin, Lloyd, Young, Arsht, Ward, Conant, Whittlesey, Hansen, Eisler.

WSRN

This year, WSRN followed what was perhaps the most extensive program of enlargement and reorganization in its history until the usual budget troubles forced a slowdown to its activity. The station began the season with impressive publicity campaign, which paid dividends in the form of a vastly increased staff. Then, thru the purchase of new equipment, WSRN was able to triple its power of transmission. During the first semester, Andy Weil was the Station Director, and the other section heads were: Mike Eisler, Production; Al Ward, Chief Engineer; Ted Conant, Technical Director with Wolf Epstein as Assistant; Dave Redding, Music, and David Peele in charge of publicity. Ken Kurtz, with the aid of Al Hunt, revamped the Sports Department, and the Radio Workshop after the departure of Otto Menzel continued its dramatic offerings under the direction of Larry Hansen.

Beginning with the Dickinson football game, nearly every major game, home and away, was broadcast, with their sponsership by local merchants proving to be one of the station's major source of income. To this was added the

Epstein, Ward, Eisler, Kurtz.

proceeds from the sale of WSRN recordings of campus events such as the Hamburg Show and the Bach Oratorio, as well as that from individual records and "talking letters."

For the Second semester, Mike Eisler became Station Director and Jim Hackett, Chief Announcer. The station began to broadcast weekly programs, originating from WSRN, over WPWA in Chester, and also to relay FM programs to the campus during the daytime. The general policy of WSRN for the second semester was to make on the spot broadcasts of all campus speakers and events of importance.

LTC

Experiment and success marked the 1947-48 season of Swarthmore's Little Theater Club. Under the direction of Mrs. Barbara Pearson Lange, the LTC concentrated on producing drama not often presented and original productions native to Swarthmore. The guiding policy of the year was based on the premise that the duty of a college theater should be to supplement rather than to imitate the professional stage.

The final production of the previous season saw the inception of the new policy, with Winifred Muir directing Chekov's *The Bear* for a Collection production. Capably done, this effort demonstrated admirably well the fruitful possibilities of the much-neglected one-act form.

Opening the current season, LTC produced two original one-act plays by Lorenz Hansen: Laughlin's Son and Departure. The value of this type of production proved threefold. From the point of view of the individual actor, the plays afforded ample range for interpretation uninfluenced by previous performances. The stage crews were enabled to exercise a wide range of ingenuity and imagination; and the playwright gained considerably in invaluable experience, As a result of the success of Hansen's works, the Club this spring is cooperating with Book and Key in sponsoring a contest for original one-act plays.

The major production of the first semester was Philip Barry's *Hotel Universe*, a metaphysically philosophical drama seldom produced. Played without intermission, a dream-like performance rewarded a very appreciative audience and a hardworking cast.

Spring brought Thomas Dekker's *Shoemakers Holiday* swirling happily back from the 17th century. Characterized by originality in design, costume, setting, and production as a whole, this fitting climax to an overwhelmingly successful season has joined the halls of happy legend.

BIN KITCHEN

This year was made memorable for the Outing Club by the coming of the "Gadget". a cross between a panel truck and a station wagon. The Gadget, of great capacity and not so great reliability, spends a good part of its time in the repair shop. However, despite such handicaps, the SOC carries on.

Specifically, carrying on includes a square dance every Wednesday night, an event every weekend, two or more intercollegiate events each year, assorted movies and slides, and the Folk Festival. The Wednesday night square dance group usually has about twenty people, enough for more than two squares. There are quite frequent differences of opinion in the group about whether New England dancing is as good as Western dancing, so both are included, well mixed with various kinds of folk dances, he weekend trips include ice skating, roller skating, and bike trips; pack trips, usually on the Applachian Trail; canoe trips from Mays Landing; and the ever popular Cabin Weekends. The cabin, on Mr. Pitt's farm near the Mason-Dixon Line, is a place for hiking, chopping wood, square dancing, eating . . . in other words, for having fun.

The two regular annual intercollegiate events are run by the Intercollegiate Outing Club Association. he first of these is the spring conference of IOCA's thirty member colleges, in which Swarthmore has participated for the last fifteen years. The conference brings representatives of these colleges together to discuss problems in running outings and outing clubs, and to sing and square dance. However, the major intercollegiate event of the year is College Week.

During College Week, the Adirondack region of upper New York State is over-run by outing clubbers, alums, and a few mountain goats, all of whom go abaut with reckless abandon climbing mountains, hiking, swimming, square dancing, singing, growing assortments of blisters, beards and bruises, and generally having a wonderful time. In the final analysis, that is the why of the Outing Club: to enable people to have a good time together, out of doors.

UNITED WORLD FEDERALISTS

With the return this fall of Colgate Prentice, former national President, the Swarthmore chapter of the World Federalists began a program of information and education for a world federation.

Under Chuck Stabler, first semester President, the Federalists concentrated on organization and expansion of its membership rolls. With the second semester election of Bill Ravdin, machinery was set up for a community-wide "World Government Day," featuring mass petitions in support of a unified world government.

Boasting one of the largest active memberships on campus, the World Federalist organization has grown from a group of five to the present total of 55, an indication of the growing consciousness of Swarthmore students of the major problems facing the world.

SWARTHMORE ORGANIZES

During the academic year, 1947-48, Swarthmore had its interests organized and catetred to by a multitude of organizations. In the field of the natural sciences, Science Integrated drew large crowds to its distinguished program of speakers, and a Physics club promised to put in an appearance for the benefit of those interested in the physical sciences. The International Relations Club heard speakers on the complexities of foreign affairs, while the Industrial Relations Club sought information on the field of domestic controversy. The AVC, the only veterans organization on campus, also sponsored a series of talks, and opened a non-profit, second hand book store as one of its campus and community projects. The SDA was the campus branch of the national Americans for Democratic Action, and the college branch of the PCA was relegated to a back row seat while most of its members were working outside of the organization in active support of the presidential candidacy of Henry Wallace. During the year, Swarthmore voted to join the National Students' Assembly (NSA), and in the spring, the Swarthmore chest drive emphasized the appeal of the World Student Service Fund for the means for educational rehabilitation abroad.

PERKINS WILL SPEAK TOO ...

THERE MIGHT EVEN BE A FRANK DISCUSSION OF SEX WHO KNOWS ?

SOCIAL COMMITTEE

The Social Committee is organized (on the basis of appointments) to provide suitable recreation and entertainment appealing to the greatest variety of personalities and interests within the Swarthmore student body. Problems of finance and capable workers as always beset the Committee, but the year proved successful, particularly in the project of widening the scope of activities available.

New types included a theater party, a student-faculty bridge party, a roller skating party and a student piano concert. Through the work of Doris Gavett and Pat Lackey, several tea dances held in Commons after football games brought a large response, while unusually popular were the pre-holiday events in December: Christmas vespers in Clothier, old-fashioned carolling on the campus, and the Candy Cane Formal, the theme of which was uniquely carried out in both the decorations arranged by Dot Brodie and the refreshments in charge of Helen Green.

The biggest occasions were of course the traditional WSGA weekends, climaxed by the formals, and the grand finale of the first semester, the Club Roccatorso, boasting a script by Dick Dickinson and Art Levin on "Dangerous Dan McGrew", starring Dean Cobbs, Mr. Pierson, and Mr. LaFore.

All the entertainment engendered a considerable amount of enthusiasm; those deserving credit are:

Co-chairman: Jean Cummins and

Bill Spangler

Treasurer: Jack Chapman Decorations: Dot Brodie Refreshments: Helen Green Publicity: Lynn Hill Chaperones, Invitations, and Prorams: Laura Reppert

Miscellaneous: Tom Bressler, Roy Dickinson, Doris Gavett, Pat Lackey, Sam Mason, Chris Meyers, Yvonne Motley, Mary Lee Schell

INTERFRATERNITY COUNCIL

The Interfraternity Council is the coordinating unit of Iraternity life on campus, and as such its functions are important not only to the fraternities themselves, but to the college as a whole. Consideration and solution of those problems arising in fraternity life, and making available the services of an organized group for various projects, are the fundamental raison d'etre of the council.

The organization is composed of two representatives from eaach of the fraternities and the Garnet Club, with the new addition of a faculty advisor, Carl Dellmuth. All relationships between the fraternities, among their members and with the Student Council, are handled by the IFC.

This year the agenda included simplification of the rushing rules, and a definite schedule of rushing smokers was set up, thus eliminating conflicting dates and enabling the prospective pledges to base their decision on a wider selection. Initiated but left for future discussion was a program to limit rushing to one period per year.

The relations of the fraternities with the college community were improved on both the athletic and administrative levels. The interfraternity basketball league during the winter, and softball league in the spring, met with a larger response in participants as well as spectators.

Through the Council, the fraternities are working on strengthening bonds with their alumni in order to utilize the benefit of their past experience and activities, and council representatives also are responsible, in conjunction with Book and Key, to give prospective freshmen a view of Swarthmore College life.

MEN'S SPORTS

Top row: Whitman, Metcalfe, Harris, Williams, Bodine, Fiske, Baily. Bottom row: Brown, Neuburg, Green, Amann.

KWINK

Since its formation in 1916, the Society of Kwink has been one of the more active and influential campus organizations. As its members are selected from the managerial staffs of the men's athletic teams, its primary function is naturally that of supervising the managerial system and supplying new men for that vital position. Through the years, however, other activities have been recognized as the traditional responsibility of the Society. Among these are the presentation of the Hamburg Show each fall, the management of food and program concessions at the football games, the planning of the men's varsity sports dinners, and the duty of assisting Gwimp with the basketball food concession. Last fall, the Society assumed the sponsorship of the Cheerleaders, and a system similar to the managerial set-up was instituted. In general, the Society works with the men's athletic department, and helps, whenever and wherever possible, to make the sports program more successful. Since last September, the Society has been at full strength for the first time in six years, and through the co-operation of all its members, has been able to fruitfully complete for the school year its many services to Swarthmore and its students.

FOOTBALL

When the season began, Lew Elverson had lifteen returning lettermen around whom to build the team, and there were several good men from last year's junior varsity as well as three talented freshmen. Although this year's team was one of the heaviest combinations ever to take

the field for the Garnet, practically all of the opposition was even heavier yet.

The season started with three losses, an ominous beginning. The opener was with Franklin and Marshall, who proceeded to pound out a 21-6 victory. The Diplomats appeared as a much better coordinate and more practiced team than Swarthmore, who was still decidedly rough on the finer points of football. The following game with Muhlenburg resulted in an unfortunate 67-7 score, the only consolation being that the Garnet's touchdown was the first to be scored against the Mules by any of its opponents. The score at Wesleyan was 40-7, but the numerical totals are not truly indicative of the game. For many small but important bad breaks, which included the recall of two touchdowns, damp-

HIGGINS

ened the ardor of the Little Quakers. The Cardinals scored five of their six touchdowns on long runs, which indicates a rather even battle between the opposing linemen.

The Ursinus game, played on homecoming day, was the first victory of the season, with Dick Cryer scoring the only touchdown of the afternoon, and Dave Work adding the extra point. This was a game that the team was determined not to lose, and they worked well together on both offense and defense. The Bears continually were in trouble, and intercepted passes put an early lid on most of their offensive efforts. The second win was over Dickinson on their field: the score, 14-7. Dick Esrey's speed was an outstand factor in this game as he scored both touchdowns, Dave Work, of course, adding the extra points. The Garnet defense was very tight and the offense dominated the field.

The John Hopkins game was, by far, the most satisfactory performance of the whole season. It was the second year in a row that Hopkins, the favorite, had been beaten by the smaller opponent. All three touchdowns were made by Dick Esrey as the result of long runs. Hopkins scored first, and Esrey returned the kickoff for Swarthmore's initial six points, following a similiar course of action with the second half

CLARK, DICKINSON

BOWDITCH

kickoff, he added the third tally with a fourth period end run. Beautiful down-field blocking was a vital factor in all of the scoring, and a four man line on defense worked well against the Hopkins air and ground attack.

Drexel, which did not win a game all year, gave the Garnet little trouble. The team functioned smoothly, and after two first period touchdowns by Cryer, relaxed to the extent of giving up two touchdowns to Drexel. However, Cryer went over again to sow up the game, Swarthmore 19 to 14. The combination of rain and mud conspired against the efficiency of both teams.

When favored Swarthmore lost to Haverford, 13-0, it was an occasion for the Garnet to hang its head in shame. Haverford went all out for this game, and had worked out an effective method of stopping the Little Quaker's offensive. Long kicks well placed towards the side lines, and fine punt returns by the Haverford safety man kept the Garnet on its own side of the field, while Haverford constantly threatened. Co-captain Botetler scored twice, aided the first time by penalties; while the Haverford line kept the Garnet's running attack under control throughout the game. The Wright Trophy, awarded annually to the outstanding man from each team, was given to Botetler and to Captain Hank

ESREY

Gorjanc in recognition of his outstanding play at guard.

Several outstanding performances during the season were turned in by Ray Posel, Jim Bowditch, and Lefty Higgins in the backfield; Gorjanc, Dave Work, Dick Greenstein. Bill Albertson, and Haines Dickinson in the line. An injury early in the season cut short what promised to be an exceptionally capable career at a tackle slot by Bud Stowe. The ends, rotating frequently and maintaining a standard of aggressive defense and sparkling offense, included Jim Kirkhoff, Gordon Mochel, Tom Vilushis, and Rich Raymond. A strong supply of reserves were a dependable source of security throughout the season.

Nichols, Palmer, Spauldings, Sparks, Lawrence, Condit, Coach Miller, Dayton, Lichten, Frank, Battin, Stevenson, Bestor, Cheyney, Amann.

CROSS COUNTRY

The 1947 Cross Country team compiled a record of three victories and one defeat, under the skillful coaching of James Miller and the leadership of Captain Irving Dayton. The season opened with the lone defeat, a 14-17 set back at the hands of a strong West Chester team. The Garnet, however, showed the promise and balance which subsequently led to an upset victory over Lafayette, 29-26 on the latter's very treacherous course, and to an overwhelming triumph over Gettysburg and Lehigh. The climax of the season was the defeat of Haverford in an extremely close match which was the most exciting contest of the year, and which gained a leg on the Hood trophy for the second consecutive time. Team spirit and the all-out efforts of everyone on a well-balanced squad, were the key to the success of the 1917 season.

Top row: Spangler, Clarke, Shaffner, Ruhl, Dunning, Bodine, Coach Kennedy. Second row: Rosen, Woerner, Garver, McCutcheon, Craver, Houlberg. First row: Ramsey, Segal, Fusaro, Jack, Roy, Burroughs.

WRESTLING

Under the excellent coaching of Ben Kennedy, the 1947-48 wrestling team had a record of three wins and three losses. The captain for the season was John McCutcheon, who wrestled 175lb, the first semester and 165 the second. Ed Burroughs held down the 121 lb class and at 128, Ed Clarkwho was injured early in the season-John Bozic and Andy Segal all saw action. Ben Fusaro, captain-elect for next year wrestled in the 136 lb class, while both Bob Shaffner and Ralph Rov represented Swarthmore in the 145. Jordy Jack and Leo Woerner fought at 155, but this position was later taken over by Ken Ruhl when he dropped from the 165 lb position he had held earlier. Dave Ramsey took over the 175 lb slot when the switch was made, and to round out the team, Newt Garver, a novice, capably handled the unlimited class,

During the season, victories were scored over Drexel, Ursinus, and P. M. C., by scores of 32-5, 22-10, and 29-3. Delaware, John Hopkins, and Haverford won against the garnet by scores of 15-13, 23-3, and 18-17. Throughout the season, the team handled itself capably with outstanding performances being turned in by Burroughs. Fusaro, Jack and McCutheon, and considerable promise promise and skill being shown by the freshmen members, Ruhl and Shaffner.

SOCCER

YEARSLEY, NICHOLSON

The 1947 varsity record of seven wins, one tie, and one loss is the second best record in Swarthmore College's soccer history, surpassed only by the perfect season of 1929. Coach Dunn had a difficult job, for the Garnet was the defending champion of the Middle Atlantic States Collegiate Conference. As assets, Dunnie had fourteen returning lettermen, and three excellent promotions from last year's unbeaten freshman team. On the other hand, the liabilities were many: a tough schedule with only two home games, frequently bad weather, and Pennsylvania and Army, two af the toughest opponents, within the first three games.

The fast moving Garnet opened the season by downing the University of Pennsylvania by a three to two score. Next, at Rutgers the team had to take some heavy charging, but returned from New Brunswick a three to one winner. At West Point, Heinz Valtin scored in the first quarter, and not until later in the game did the Cadets manage to tie it up. Throughout the last quarter the Garnet attack was a constant threat, calling from the cadets their utmost efforts to prevent another Swarthmore scoring again. When Army refused to play overtime, the match remained a one to one draw.

Stevens Institute of Technology came to Swarthmore and lost by three to one, and on Ursinus' rolling fields, the home team was shut out three to nothing. At Princeton, Captain Rolf Valtin had a field day, scoring every one of the goals of the four to nothing triumph. Lehigh came to Swarthmore and took home a two to one victory over a Garnet completely disoriented by an injury to one of its best men. On a rainy day at Annopolis, in a game resembling a swimming meet, Navy was drowned by four to two, following the injury of their goalic when he dived into Rolf Valtin's shoe.

Last, but never least, Haverford was beaten by one to nothing. This score was repeated with Swarthmore on the loosing end, when the Garnet played home against Rutgers in an extraseason game for the district championship.

In spite of losing its title, the Garnet could be proud, for it had established a percentage of .877, scored twenty-three goals against nine by their opponents, and placed Rolf Valtin and Chris Pedersen as All-Americans. Six members of the team: Pedersen and Valtin, Buch Shane, Frank Nicholson, Joe D'Annunzio and Larry Yearsley entered preliminary trials for the Olympic team. Pedersen, Valtin and D'Annunzio survived the first elimination, and Pedersen and Valtin, the second, both with excellent chances of landing berths on the final team.

In his last year at Swarthmore, Rolf Valtin broke two college records: his own of most goals scored per season, from seven in 1946 to a new high of twelve in 1947, and the highest number of goals scored by a player in a single game. Besides those mentioned above, Heinz Valtin, Ned Neuburg, Dave Doehlert, Morrie Bassett, Phil Evans, John Henchel, Ali Al Yasir, and Jack McCrory all played first class games. Heinz Bondy and Dick Longaker were injured early in the season and never had a chance to prove themselves. A number of other men were injured during the season, but the Garnet's excellent reserve strength came through and gave promise of other good seasons to come. Captain-elect Chris Pedersen should lead another title threatening team next year.

Top row: Williams, Keighton, Thompson, Frost, Graves, Mason, Brickner, Rawson, Bailey. First row: Cox, Strauss, Sickle, Peabody, Daland, Coach McAdoo.

SWIMMING

Smashing six out of eight college records on the way, the most successful swimming team in Swarthmore history swept to seven straight after initial losses to Penn and Temple. Brooklyn College was overwhelmed 46-29 after which Franklin and Marshall was beaten 38-37 as Vernon in his final intercollegiate appearance helped to break the college record for the medley relay. Drexel fell next and then a tense struggle with Delaware culminated in victory by a singe point gained in the final relay. Loyola was added to the Garnet victims, and the season headed for its climax with a 43-32 decision over Lehigh. Finally, undefeated Westchester fell after a protracted struggle before record breaking performances by Graves, Daland, Cox and Rawson.

Unable to match the individual stars on the Westchester and Lehigh teams in the Middle Atlantic Conference meet, the Swarthmore men never-the-less remained in the running until the final event. Daland, team captain, and Rawson finally broke the 220 and 100 yard freestyle records at this meet after threatening all year. Several times during the year, Graves broke his own mark for the backstroke, and Vernon and Piccard broke the breaststroke record alternately, until Vernon graduated, whereupon Piccard finally set the record which is now official.

Top ron: Wentz, Esrey, Reilly, Evans, Higgins, D'Annunzio, First ron: Yearsley, Cryer, Unger, Garrett, Valtin.

BASKETBALL

Last year's team, champion of the Southern District of the Middle Atlantic Conference, was intact this season with exception of Fuzzy Fausnaugh, who was lost thru graduation. With Captain Dick Unger, Bucky Garrett, Jim Reilly, Lefty Higgins and Dick Civer, Coach Bill Stetson had a reliable and practiced five with which to begin the season's operations. Right from the start the team showed plenty of spark as they breezed past Textile and Pharmacy, 55-28, and 19-33, respectively. Tempered a bit by a 49-25 defeat at the hands of a superior Penn team, a fighting Garnet five came from behind to lick Franklin and Marshall 16-43 in a game which saw Swarthmore's Jim Reilly rack up fifteen points. At this point, the Garnet fell upon evil days, recciving a 60-31 defeat by Lafavette and a heartbreaking 11-39 loss to Army after a late rally failed to overcome the Cadet's lead.

Beginning to gather up steam when Lefty Higgins' basket in the final seconds resulted in a 38-36 win over Delaware, the Swarthmore team rolled to three straight victories over P. M. C.,

Drexel. and Johns Hopkins. Although hard pressed by P. M. C. in a game that needed an overtime period to settle the issue 45-39. Drexel and Hopkins went down easily 67-42 and 55-52. Dick Cryer's twenty-two points most of which were obtained by beautiful one-handed push shots, were highly instrumental in the victory over Drexel, while Reilly, Higgins, and Gary had a combined total of thirty eight against Hopkins.

A hard fighting Ursinus team gave the Garnet its first conference defeat, 49-38 at Collegeville. Bouncing back from this catastrophy, the Garnet outscored Haverlord, 66-41, in a fast and fiashy performance. Fine defensive games turned in by Garrett and Unger kept the Haverlord team's offensive from functioning as well as it had against many opponents.

At P. M. C., the Quakers suffered their worst deleat of the season, 80-46. Confused by the small court and bewildered by the dogging tactics of the opposition, the Swarthmore men scored their usual number of points for the evening, but were completely unable to stop Martz, and Margavage, and other P. M. C. sharpshooters. In a nonconference game the second team paced by Dick Estey's 13 points lost a close one to Moravian, 50-54. With three quick victories. Delaware 69-52, Drexel 48-42, and Haverford 59-45. Swarthmore practically had the Southern Division title in the bag, only to lose to Ursinus at home, 54-43.

As a result of the loss to Ursinus, the Garnet

JUNIOR VARSITY

Top row: Stoudt, Francis.
Parsons, Wilson. Spenser,
Sipler. Bottom row: Spock.
Hazard, Weston. Brown.
Oppenlander. Gaskill.

was thrown in a three-way tie first place with Ursinus and P. M. C. Traveling to Norristown for the first gamet of the play off, Swarthmore was again throttled by its old nemesis, Ursinus. The Bears jumped to the lead from the outset of the game and were never threatened. Although Pete Kaiser, Joe D'Annunzio, Phil Evans, and Larry Yearsley showed plenty of fire in the second half, it wasn't enough to prevent a 49-37 defeat.

Not to be overshadowed by the varsity, Coach Howard Sipler's Jayvees established an enviable reputation for themselves. Although their performance was never so spectacular as Coach Stetson's men, the "junior" team showed plenty of ability in upsetting a tremendously favored and previously undefeated Delaware team 44-43. Though their record of ten wins and six losses does not seem particularly impressive, it is notable that of the six games lost, four were by a margin

UNGER

J. V. 39-PENN STATE 42

REILLY

of two points or less, and the season ended triumphantly with four straight victories.

As a fitting climax to the 1948 basketball season, Jim Reilly was selected as a member of the All-Philadelphia team. Outstanding on the team, both offensively and defensively, he scored 266 points during the season.

Captain Dick Unger. Lefty Higgins, Pete Kaiser, Rolf Valtin, Larry Yearsley, Phil Evans, all seniors, climaxed brilliant careers. Sam Gary, out for the first half of the season and a mainstay in the latter half, was elected Captain for the next season.

LACROSSE

Top ron: Coach Blake, P. Kaiser, Dickinson, Henchel, Smith, Goudsmit, Meta, Glucksman, Coach Piper. Sccond ron: C. Kaiser, Ludeman, Frost, Albertson, Cosinuke, Enders, Eger, Hurd. Third ron: Douglas, Kirkhoff, Weymuller, Bowditch, Dunning, Kuller, Piper.

In the beginning it was the Field House. That's how the Lacrosse team genesis would start; for early in the year they were down there bouncing the ball off the wall, off the screen, off Faulkner's head, off everything—life wasn't safe for ordinary pedestrians. Then it was out in the mush of early Spring, slinging the ball and the mud around with equal abandon. Finally, the field got hard and the squad got in shape and ready to begin their season.

'Twas a glorious start, too, for they took Washington and Lee by a 12-6 margin. Then the Tigers from Princeton walloped the Blakemen 15-5. Showing good spirit, the Garnet bounced back to an 18-4 triumph over Lehigh. Then there was Virginia: beaten by 16-3; but Swarthmore also got beaten by Ole Virginny's sticks. Loyola, Drexel, Stevens, Penn, and Westchester were overcome by scores of 14-2, 9-2, 13-4, 11-5, and 10-1, respectively. The victory over Loyola was especially sweet, compensating for last season's defeat.

Then came Navy—came, saw, and conquered in the words of another writer—when it was all over and the bodies carried from the field, the score stood at 18-2 in the Middies' favor. The windup of the season was a thriller with Penn State. Swarthmore was on top of an 11-9 score at the end of that one, which went into an overtime period.

Now for the men who were responsible for this highly successful season. On the attack and in the midfield were Abner Albertson, Walter Cosinuke, Bob Kuller, John Piper. Stafford Metz. and Captain Jim Bowditch. The last three deserve special mention: Metz for being high scorer with 25 goals, Piper runner-up with 21, and Bowditch for his fine field-generalship. On defense were Haines Dickinson, John Henschel. Pete Kaiser, and goalie Ed Dunning. Backing up the starting ten were Si Goudsmit, Gordon Douglas, Malcolm Smith, and Herb Frost, all fine lacrosse men.

Special honorary mention must be made of the Jayvees, who in their own right won four out of five. As good as the season was, prospects for 1948 seemed better.

Top row: Carrell, Chambers, Higgins, Mahler, Oppenlander, Esrey, Richardson, Macchi, Dickinson. First row: Gillam, Evans, Denton, DeBurlo, Black, Valtin, Willis.

BASEBALL

The 1947 varsity baseball squad showed more strength than a record of six wins and eight losses would indicate. Two of the losses, to Penn and to Lafayette, were by one run. Several members of the team turned in outstanding individual performances, despite the over all record. Captain Bill Black scouted second base with almost

faultless skill, and was third among leaders of the batting average scale. Warren Higgins, captainelect for 1948, was key man on defense and in the hitting department: scoring sixteen runs, batting in the same number, and averaging .431.

Dick Esrey as centerfielder and pitcher proved a very capable player, hitting .400 and leading the team in stolen bases. Elliot Richardson had a better fielding average than the combined averages of the opposition's catchers. Rolf Valtin and Ed Mahler in the infield; Jack Denton, Jack Willis, and Phil Evans on the mound; Rusty DsBurlo, Cliff Gillam, and Arky Chambers all turned in impressive performances.

GOLF

Top row: Feltan, Lawrence, Armington, Yearsley, Risko, Coach Eckerd. First row: Stein, MacLaren, Longstreet, Reller.

The golfing sextet enjoyed a successful season in 1947, winning six out of nine matches. The year got off on a sour note with two matches going to Princeton, 9-0, and Penn, 8½-½, respectively. Traveling to West Point, the Garnet won, 5-4, on the eighteenth green. The team took off from there to sweep easily through its next two matches: beating Franklin and Marshall, and LaSalle by scores of 6-3 and 9-0.

Drexel, the next opponent, was in many ways the "big" team of the yeaar. The match was close and very tense, even all the way, until Swarthmore dropped in the last hole, 5-4. Traditional rival Haverford, on its own course, fell easily, 7-2. The high point of this match and of the year was the 72 shot by Howard Stein. The two last matches with Lafayette and Lehigh were taken by Coach Eckerd's men, 5-4 and $8\frac{1}{2}\frac{1}{2}$.

TENNIS

The two outstanding events of a very successful 1947 tennis season were the win over Army, 5-3, and the loss to Haverford, 8-1. In the Haverford match, Morrie Bodenger vanquished his stiff opponent alter going to three sets and racked up the single game win of the entire meet. Shane and Rossheim also went to three sets in extremely close battles. Kirschner put up prolonged fights in his second set, 'though he eventually dropped it, 11-13, and lost his match. This was the first loss to Haverford in tennis since 1938.

At West Point, Bodenger met his only defeat

Top row: Coach Faulkner, Rossheim, Kirschner, Schmidt, Frankel, Hoskins. First row: Shane, Dordick, Quint, Bodenger.

of the year at the hands of Army's number one player, but the team as a whole chalked up a decisive win over the Army team, the first since 1930.

he season was the second best in Swarthmore's tennis history: fourteen wins out of fifteen matches. Johns Hopkins, Moravian, Lafayette, LaSalle, Franklin and Marshall, Muhlenburg, Ursinus, and Delaware were all defeated by perfect scores, 9-0. Other victims were Pennsylvania, 5-4, Westchester, 8-1, Temple, 8-0, Drexel, 8-1, and Lehigh, 7-2.

Top row: Amann, Montcalm, Jack, Brickner, Nicholson, Coach Barron, Raymond, Bradshaw, Harris, Tietz, Metcalfe, Fiske. Second row: Rawson, Moore, Fausnaugh, Work, Vernon, Gary, Clark, Williams, Frank. First row: Posel, Mochel, Daland, Valtin, Van Dusen, McBride. Stuckenrath.

TRACK

Coaches Bert Barron and Lew Elverson guided the 1947 track team through a rather successful season. Two very close defelats were handed the Garnet by teams visited in the first meets of the year: John Hopkins emerging the victor, 66-60, in the opener, and Lehigh edging out Swarthmore by the narow margin of 6234-61. Temple, hosts for the second meet, finished a sorry third. Both of these contests were decided by the outcome of the last event on the card.

Returning to more familiar surroundings. Alumni Field, the cinder men showed plenty of power in winning. 71-55, from Delaware. In the next two meets, both at home, all-around strength was displayed. Haverford was crushed, 82-44, in a contest whose outcome was never in doubt. In another triangular meet, the Garnet scored 891/2 points, with Drexel and Ursinus trailing, 36 and 281/2. To climax the campaign, Swarthmore came from behind in the last event, the broad jump, to snatch a victory from St. Joseph's in the Neighborhood Meet by the margin of 53 5 6-461/2. Four other colleges were far behind.

During the Middle Atlantic Meet held at Rutgers, in which the Garnet placed fourth. John Moore established a new College record for the 120 High Hurdles. His time of 15.5 bettered the record of 35 years standing. Throughout the season. Captain Bob Vernon paced the team with his all-around skill, while Moore, Dave Williams, and Frank Nicholson also provided consistently good performances.

WOMEN'S SPORTS

WOMEN'S ATHLETIC ASSOCIATION

The WAA has a station wagon—but that's not all. Its membership includes every woman student in the college. The WAA Council is elected by the girls at large, and consists of two freshmen, three sophomores, and two juniors, plus a representative each from Gwimp and the Outing Club.

WAA has control of women's athletics, mostly through the financial department. It is known to the students primarily through the large variety of extracurricular sports it has offered. The Council, led by Helen Hill, has sponsored this year co-ed fencing, badminton, archery and riding. They also planned a riding show in the spring. For the girls, they have arranged inter-class tennis, archery and hockey tournaments, and started an informal bowling group which met every Thursday night. WAA also holds the annual hockey banquet when athletic awards are made.

This year they purchased a new station wagon, and to save wear on this, they bought a second hand truck which is available to other student organizations.

In order to familiarize the students with their activities, a copy of the minutes of each WAA meeting posted on the bulletin board by the east door of Parrish, and a trophy case is being built in the entrance to the Hall Gymnasium, which will display the class plaques and individual awards.

Since a large number of the students are not required to participate in athletics, the WAA is of particular importance because of the recreational activities it offers to this group.

Crooks

TENNIS

For the 1947 season, the women's tennis team turned in another one of the outstanding records for which it has been responsible in recent years. Losing only one match, the team chalked up six victories, four of them shut-outs and the other two overwhelmingly Swarthmore victories. The results of the individual matches were:

April	28	Swarthmore 5, Chestnut Hill	()
May	l	Swarthmore 4, William & Mary	l
	9	Swarthmore 5, Rosemont	0
	13	Swarthmore 2, Penn	3
	21	Swarthmore 5, Drexel	0
	23	Swarthmore 5, Temple	0
	28	Swarthmore 4. Bryn Mawr	l

while the junior varsity won over Upper Darby and Penn.

The varsity members were:

Evans, Roosevelt, Abbott, Hench, Thorp, Jamison, Clendenin and White.

The captain of the team was Gloria Evans, who with Amy Roosevelt was awarded a gold "S" for four years of varsity participation, and the manager was Peg Mac Laren. Gloria Evans was also second in the Intercollegiate Tennis Tournament, held at Bryn Mawr.

The junior varsity was composed of:

Strawbridge, Zander, H. Hill, Stewart, Michener, Litchard, Merson, Wilcox.

In a season that probably broke the record for record-breaking, the women's swimming team emerged undefeated from all of its nine dual meets, tied for second place in the Eastern Intercollegiate Meet and took third in the Eastern Regionals of the National Telegraphic. Garnet victims were Penn (32-25), Beaver (37-20), Chestnut Hill (38-19), Drexel 43-14), Temple (31½-25½), Bryn Mawr (32-25), Brooklyn (54-14), Hinter (37-20), and Ursinus (40-17). Only twice was the team hard pressed, and on both occasions—against Temple, and Bryn Mawr—the free-style relay team responded by breaking college records to win both race and meet.

Overwhelming speed and the versatility of individual team members were vital factors in the Quakerette victory-gathering, but of at least equal importance was the steady improvement of all squad members under the expert coaching of Dinny Rath. Strongest spot on the varsity was the backstroke where freshman Martha Penfield finished the season undefeated, taking Eastern Intercollegeiate and Eastern Regional titles and setting numerous records. Junior Selma Eble and sophomore Pat Niles also came thru with performances that placed them among the top

backstrokers in the area, in addition their freestyle talents for the shorter distances enabled Selma alone to contribute five victories. Freshman Laura McClellan, improving after a slow start, twice lowered the college record for the 100 yard freestyle, and doubled as a backstroker as well. Eloise Schlichting, 1947 captain and only senior squad member, and sophomore Gertrude Joch garnered breaststroke points for the varsity while two hitherto inexperienced divers, junior Jane DeVries and freshman Janet Merrill came thru with five firsts and four seconds in that department.

The medley relay team of Penfield, Beebe, and Eble and Niles was undefeated as was the free-style relay team, of which Schlichting, Merrill, McClellan, Beebe, Niles and Eble were the most frequent members. Team captain Barbara Beebe was outstanding in her showings both as breast-stroker and as member of the different relay teams.

The trademark of the 1948 edition of the Swarthmore mermaids was its many record-breaking performances: fourteen school, four pool and four intercollegiate.

		v "		

Son! What's all this the administration's been writing me about you?

"FREUD would have something to say about that."
